

- 1) First, cart is empty. We can add book in cart by clicking on add button, which is redirected to AddBookActivity. There are two option in menu bar which are back and save. If we click on save, book information will add to cart.
- 2) On single click, it redirects to ViewBookActivity which display all the information of book.
- 3) On long click, it gives delete option to delete book from cart.
- 4) There is one option to place an order. When we click on that, it redirects to CheckoutActivity. It has two options in menu bar. One is back option to go on main page. Another is checkout. When we click on check out, it confirms order.
